

12 Register der Gattungen und Familien

| | | | |
|------------------------|----------|--------------------------|---------------|
| Abax | 56 | Alleculidae | 281 |
| Abdera | 280 | Allonyx | 202 |
| Abraeus | 109 | Aloconota | 178 |
| Acalles | 383 | Alophus | 381 |
| Acalyptus | 372 | Alosterna | 299 |
| Acanephodus | 351 | Alphitobius | 285 |
| Acanthocinus | 307 | Alphitophagus | 284 |
| Acanthoderes | 306 | Altica | 332 |
| Acanthoscelides | 341 | Amalus | 387 |
| Acidota | 131 | Amara | 61–66 |
| Acilius | 93 | Amarochara | 188 |
| Acmaeops | 298 | Amischa | 178, 179 |
| Acritus | 109 | Ampedus | 204–206 |
| Acrotona | 185 | Amphicyllis | 121 |
| Acrotrichis | 125, 126 | Amphimallon | 292 |
| Actenicerus | 209 | Amphotis | 232 |
| Acupalpus | 52, 53 | Anacaena | 105 |
| Adalia | 260 | Anaesthetis | 306 |
| Aderidae | 274 | Anaglyptus | 305 |
| Aderus | 274 | Anaspis | 273, 274, 431 |
| Adrastus | 208 | Anastrangalia | 300 |
| Agabus | 85–87 | Anatis | 263 |
| Agapanthia | 307 | Anaulacaspis | 177 |
| Agathidium | 121, 122 | Anchomenus | 60 |
| Agelastica | 326 | Anidorus | 274 |
| Agonum | 57–60 | Anisodactylus | 46 |
| Agrilus | 217–219 | Anisosticta | 260 |
| Agriotes | 207 | Anisotoma | 120, 121 |
| Agrypnus | 209 | Anisoxya | 280 |
| Agyrtes | 116 | Anobiidae | 266 |
| Agyrtidae | 116 | Anobium | 267, 268 |
| Ahasverus | 237 | Anomala | 292 |
| Aizobius | 354 | Anomognathus | 176 |
| Akimerus | 298 | Anoploclera | 300 |
| Aleochara | 191, 192 | Anoplotrupes | 287 |
| Aleuonota | 185 | Anoplus | 398 |
| Alianta | 185 | Anostirus | 210 |
| Allandrus | 342 | Anotylus | 135 |
| Allecula | 281 | Anthaxia | 216, 217 |

| | | | |
|--------------------|--------------|----------------------|----------|
| Antherophagus | 242 | Aulonothroscus | 215 |
| Anthicidae | 275 | Autalia | 176, 177 |
| Anthicus | 275 | Axinopalpis | 302 |
| Anthobium | 130 | Axinotarsus | 200 |
| Anthocomus | 199, 200 | | |
| Anthonomus | 375, 376 | Badister | 67, 68 |
| Anthophagus | 131 | Bagous | 368, 369 |
| Anthracus | 53 | Baris | 384 |
| Anthrenus | 225 | Barynotus | 363 |
| Anthribidae | 342 | Barypeithes | 362 |
| Anthribus | 343 | Batophila | 333 |
| Aphanisticus | 219 | Batrisodes | 193 |
| Aphidecta | 259 | Bembidion | 40–45 |
| Aphodius | 289–291 | Berosus | 108, 109 |
| Aphthona | 328, 329 | Biblopectus | 192 |
| Apion | 355 | Bibloporus | 192 |
| Apionidae | 351 | Bidessus | 77 |
| Aplocnemus | 200, 201 | Bitoma | 253 |
| Aploderus | 134 | Blaps | 282 |
| Apocatops | 119 | Bledius | 136, 430 |
| Aporoderus | 351 | Blethusa | 36 |
| Araecerus | 343 | Blitophaga | 115 |
| Arhopalus | 296 | Bolitobius | 167 |
| Aromia | 303 | Bolitochara | 176 |
| Arpedium | 131 | Bolitophagus | 283 |
| Arpidiphorus | 264 | Bostrichidae | 266 |
| Asaphidion | 45, 46 | Bostrichus | 266 |
| Asemum | 296 | Bothrideres | 227 |
| Asiolestia | 333 | Bothrideridae | 227 |
| Aspidapion | 352 | Brachonyx | 377 |
| Astenus | 143 | Brachyderes | 362 |
| Atheta | 180–185 | Brachygluta | 193, 194 |
| Atholus | 114 | Brachygonus | 206 |
| Athous | 212 | Brachypterolus | 235 |
| Atomaria | 242–244, 430 | Brachypterus | 235 |
| Atrecus | 149 | Brachysomus | 361 |
| Attagenus | 224 | Brachytarsus | 343 |
| Attalabidae | 351 | Brachyusa | 178 |
| Attelabus | 351 | Bradybatus | 377 |
| Auletobius | 348 | Bradycellus | 51, 52 |
| Auleutes | 387 | Bromius | 319 |
| Aulonium | 253 | Brosicus | 38 |

| | | | |
|---------------------------|----------|----------------------------|--------------|
| Bruchidae | 340 | Cercyon | 101–104, 430 |
| Bruchidius | 341 | Cerocoma | 276 |
| Bruchus | 340, 341 | Cerophytidae | 214 |
| Brumus | 259 | Cerophytum | 214 |
| Bryaxis | 193 | Cerylon | 227 |
| Bryophacis | 166 | Cerylonidae | 227 |
| Buprestidae | 215 | Cetonia | 293 |
| Buprestis | 216 | Ceutorhynchus | 388–392 |
| Byctiscus | 350 | Chaetarthria | 107 |
| Byrrhidae | 226 | Chaetocnema | 335, 336 |
| Byrrhus | 226 | Chaetopteroptia | 293 |
| Bythinus | 193 | Chalcophora | 215 |
| Byturidae | 227 | Charopus | 199 |
| Byturus | 227 | Chilocorus | 258 |
| Caenorhinus | 349, 350 | Chilomorpha | 188 |
| Calambus | 210 | Chlaenius | 66 |
| Calathus | 57 | Chlorophorus | 305 |
| Callicerus | 178 | Choleva | 117, 118 |
| Callidium | 303 | Cholevida | 116 |
| Calodera | 187, 188 | Chromoderus | 367 |
| Calodromius | 71 | Chrysanthia | 270 |
| Calopus | 270 | Chrysobothris | 217 |
| Calosoma | 32 | Chrysolina | 319–322 |
| Calvia | 262 | Chrysomela | 323 |
| Cantharidae | 195 | Chrysomelidae | 310 |
| Cantharis | 195–197 | Cicindela | 31, 32 |
| Carabidae | 31 | Cicones | 253 |
| Carabus | 32–34 | Cidnopus | 211 |
| Carcinops | 111 | Cilea | 172 |
| Cardiophorus | 213 | Kimberidae | 348 |
| Carpelimus | 132–134 | Kimberis | 348 |
| Carphacis | 167 | Cionus | 397 |
| Carpophilus | 228 | Cis | 264, 265 |
| Cartodere | 249 | Cisidae | 264 |
| Cassida | 338–340 | Clambidae | 219 |
| Catapion | 355 | Clambus | 219, 220 |
| Catops | 118, 119 | Clanoptilus | 199 |
| Cerambycidae | 295 | Cleonis | 367 |
| Cerambyx | 302 | Cleopus | 397 |
| Cerapheles | 200 | Cleridae | 202 |
| Ceratapion | 352 | Clitostethus | 258 |
| | | Clivina | 37 |

| | | | |
|----------------------------|----------|-----------------------------|--------------|
| Clytra | 314 | Cryptobium | 147 |
| Clytus | 304 | Cryptocephalus | 315–319 |
| Coccidula | 255 | Cryptolestes | 247 |
| Coccinella | 260, 261 | Cryptophagidae | 240 |
| Coccinellidae | 255 | Cryptophagus | 240–242, 430 |
| Coccinula | 261 | Cryptophilus | 244 |
| Coelambus | 77, 78 | Cryptopleurum | 104 |
| Coeliastes | 394 | Cryptorhynchus | 383 |
| Coeliodes | 388 | Ctenicera | 209 |
| Coelostoma | 101 | Cteniopus | 282 |
| Colaphus | 322 | Ctesias | 225 |
| Colenis | 120 | Cucujidae | 237 |
| Colydiidae | 253 | Curculio | 377, 378 |
| Colydium | 253 | Curculionidae | 357 |
| Colymbetes | 91 | Curtimorda | 277 |
| Comasinus | 372 | Cyanostolus | 237 |
| Coniocleonus | 366 | Cybister | 95 |
| Conopalpus | 280 | Cybocephalidae | 235 |
| Copelatus | 84 | Cychrus | 34 |
| Coptocephala | 315 | Cymbiodyta | 107 |
| Cordalia | 177 | Cymindis | 70 |
| Cordicomus | 276 | Cynegetis | 255 |
| Cordylepherus | 199 | Cypha | 174 |
| Corticaria | 250, 251 | Cyphocephalus | 235 |
| Corticarina | 251 | Cyphocleonus | 367 |
| Corticeus | 284, 285 | Cyphon | 220, 221 |
| Corticicaria | 251 | Cytilus | 226 |
| Cortodera | 298, 299 | | |
| Corylophidae | 253 | Dacne | 239 |
| Corylopus | 254 | Dactylosternum | 101 |
| Corymbia | 300 | Dalopius | 206 |
| Coryphium | 131 | Dasygnypeta | 177 |
| Coryssomerus | 385 | Dasytes | 201 |
| Cossonus | 367 | Datonychus | 392, 393 |
| Creophilus | 157 | Deinopsis | 172 |
| Crepidodera | 334 | Deleaster | 132 |
| Crepidophorus | 212 | Demetrias | 69, 70 |
| Crioceris | 313, 314 | Dendrophilus | 110, 111 |
| Cryphalus | 345 | Denticollis | 211 |
| Cryptamorpha | 238 | Deporaus | 351 |
| Cryptarcha | 233 | Dermestes | 223, 224 |
| Crypticus | 283 | Dermestidae | 223 |

| | | | |
|---------------------|----------|---------------------|----------|
| Dermestoides | 202 | Dytiscus | 93, 94 |
| Derodontidae | 203 | Ebaeus | 200 |
| Deronectes | 83 | Eblisia | 114 |
| Deubelia | 188 | Ectinus | 208 |
| Dexiogyra | 190 | Elaphropus | 39 |
| Diachromus | 46 | Elaphrus | 36 |
| Diaclina | 285 | Elateridae | 204 |
| Dianous | 142 | Eledona | 283 |
| Diaperis | 283 | Ellescus | 372, 373 |
| Dibolia | 336 | Elmidae | 222 |
| Dicheirotrichus | 51 | Elmis | 222 |
| Dicronychus | 213, 214 | Elodes | 220 |
| Dictyoptera | 194 | Emus | 157 |
| Dienerella | 249 | Endomychidae | 254 |
| Dinaraea | 179, 180 | Endomychus | 255 |
| Dinarda | 187 | Enedreutes | 342 |
| Dinoptera | 298 | Enicmus | 248, 249 |
| Dinothenarus | 158 | Ennearthron | 266 |
| Diplapion | 352 | Enochus | 106, 107 |
| Dirhagus | 214 | Epaphius | 38 |
| Disopora | 178 | Ephistemus | 244 |
| Dissoleucas | 342 | Epitrix | 334 |
| Dochmonota | 179 | Epuraea | 230–232 |
| Dolichosoma | 201 | Ergates | 295 |
| Domene | 145 | Erichsonius | 150 |
| Donacia | 310–312 | Ernobius | 267 |
| Donus | 381 | Ernoporicus | 345 |
| Dorcatoma | 268 | Erotylidae | 239 |
| Dorcus | 295 | Euaesthetus | 142 |
| Dorytomus | 369, 370 | Eucinetidae | 221 |
| Doydirhynchus | 348 | Eucinetus | 221 |
| Drapetes | 215 | Eucnemidae | 214 |
| Dreposcia | 118 | Eucnemis | 214 |
| Dromaeolus | 214 | Euconnus | 123 |
| Dromius | 71 | Euplectus | 192, 193 |
| Drusilla | 186 | Euryporus | 161 |
| Dryocoetes | 345 | Euryusa | 176 |
| Dryophthorus | 383 | Eusomus | 361 |
| Dryopidae | 221 | Eusphalerum | 128 |
| Dryops | 221, 222 | Eustrophus | 279 |
| Dyschirius | 37, 38 | Euthia | 122 |
| Dytiscidae | 76 | | |

| | | | |
|------------------------------|----------|--------------------------------|----------|
| Eutrichapion | 356, 357 | Hadroplontus | 393 |
| Exapion | 353 | Haliplidae | 73 |
| Exocentrus | 307 | Haliplus | 73–75 |
| Exochomus | 258, 259 | Hallomenus | 279 |
| | | Halyzia | 263 |
| Falagria | 177 | Hapalaraea | 129 |
| Falagrioma | 177 | Haploglossa | 190, 191 |
| Fissocatops | 119 | Haplotarsus | 210 |
| Furcipes | 376 | Harmonia | 261 |
| | | Harpalus | 46–49 |
| Gabrius | 156, 157 | Hedobia | 266 |
| Galeruca | 325 | Helochares | 106 |
| Galerucella | 324 | Helophorus | 99–101 |
| Gastrocercus | 383 | Hemicrepidus | 212 |
| Gastrophysa | 322 | Henosepilachna | 255 |
| Gauropterus | 148 | Hesperus | 150 |
| Geostiba | 179 | Heterhelus | 235 |
| Geotrupes | 287 | Heteroceridae | 222 |
| Geotrupidae | 286 | Heterocerus | 222, 223 |
| Gibbium | 269 | Heterothops | 160, 161 |
| Glischrochilus | 233, 234 | Hippodamia | 259 |
| Globicornis | 224, 225 | Hippuriphila | 333 |
| Glocianus | 392 | Hirticomus | 276 |
| Gnathoncus | 109, 110 | Hispa | 338 |
| Gnorimus | 294 | Hister | 113, 114 |
| Gnypeta | 178 | Histeridae | 109 |
| Gonioctena | 323, 324 | Holobus | 173 |
| Gonodera | 281 | Hololepta | 111 |
| Grammoptera | 299 | Holotrichapion | 356 |
| Graphoderus | 92, 93 | Homalota | 176 |
| Graptodytes | 82 | Hoplia | 293 |
| Gronops | 383 | Hydaticus | 91, 92 |
| Grynocharis | 203 | Hydraena | 96 |
| Grypus | 372 | Hydraenidae | 96 |
| Gymnetron | 395, 396 | Hydrobius | 104 |
| Gyrinidae | 95 | Hydrochara | 108 |
| Gyrinus | 95, 96 | Hydrochidae | 98 |
| Gyrophypnus | 148 | Hydrochus | 98, 430 |
| Gyrophaena | 174, 175 | Hydroglyphus | 77 |
| | | Hydronomus | 369 |
| Habrocerus | 165 | Hydrophilidae | 99 |
| Habroloma | 219 | Hydrophilus | 108 |

| | | | |
|---------------------------------|----------|------------------------------|----------|
| Hydroporus | 79–82 | Lagriidae | 281 |
| Hydrossecta | 178 | Lamprinodes | 171 |
| Hygronoma | 174 | Lamprinus | 171 |
| Hygrotus | 78, 79 | Lamprohiza | 195 |
| Hylastes | 344 | Lampyridae | 195 |
| Hylecoetus | 203 | Lampyrus | 195 |
| Hylesinus | 345 | Languriidae | 244 |
| Hylis | 214 | Laricobius | 203 |
| Hylobius | 381 | Larinus | 366 |
| Hylotrupes | 303 | Lasiorrhynchites | 349 |
| Hylurgops | 344 | Lasiotrechus | 39 |
| Hylurgus | 344 | Lathrobium | 145–147 |
| Hymenalia | 281 | Latridiidae | 248 |
| Hypera | 381, 382 | Latridius | 248 |
| Hyperaspis | 259 | Lebia | 69 |
| Hyphydrus | 76 | Leiodes | 120 |
| Hypnogyra | 149 | Leioididae | 120 |
| Hypocassida | 338 | Leiopus | 306, 307 |
| Hypoganus | 211 | Leistus | 34, 35 |
| Hypulus | 280 | Leperisinus | 345 |
| | | Leptacinus | 147, 148 |
